

AIUB FOODLOOP

A Smart Campus System to Measure, Prevent, Rescue & Reuse Food Waste

MEASURE IT. PREVENT IT. RESCUE IT. RETURN IT.

AIUB SUSTAINABLE FUTURES 2026

Student Poster Competition

SDG 12

Responsible Consumption & Production

THE CHALLENGE

Why food waste on campus matters — the global and local evidence

WHY FOOD BECOMES WASTE ON CAMPUS

RAPID AIUB STUDENT PULSE SURVEY

Sample size: n = 13 Survey window: August 2026 Rapid Google Forms pulse survey

Literature Review

Recent research highlights the importance of combining measurement, behavioural interventions, and institutional support to reduce food waste in educational settings. A systematic review of university and college interventions identified awareness campaigns, portion-size reduction, tray-less dining, food sharing, and incentives as commonly studied approaches, while emphasizing the need for long-term and context-sensitive interventions [5]. University-student behaviour is also strongly influenced by factors such as attitude, subjective norms, perceived behavioural control, environmental knowledge, and personal norms [6]. Recent evidence from five Indonesian universities further indicates that food-waste education and environmental awareness can improve the alignment between students' intention and actual food-waste reduction behaviour [3]. Institutional support is another important factor. Research among residential university students found that university support can strengthen students' intention to separate food waste [4]. In addition, an intervention using a plate-waste tracker and feedback achieved a 17% reduction in plate waste, with the reduction remaining evident up to 15 months after implementation [5].

THE FOODLOOP SYSTEM

MEASURE → PREVENT → RESCUE → RETURN

STUDENTS DRIVE THE LOOP

START SMALL. MEASURE. IMPROVE. SCALE.

“The most sustainable food is the food we never waste.”

MEASURE IT. PREVENT IT. RESCUE IT. RETURN IT.

EXPECTED IMPACT

Proposed pilot targets — to be measured during implementation

HOW SUCCESS WILL BE MEASURED

DESIGNED TO SCALE
